Office Action Summary	Application No. 09/445,112	Applicant(s) JURGENSEN, HEINRICH	
	Examiner Delma R. Flores Ruiz	Art Unit 2828	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 May 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 29-39 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 29-39 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29 – 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Shaw et al.

Regarding claim 29, Shaw discloses a method for reducing pump light in a region of a laser light exit of a laser resonator fiber, comprising the steps of; providing said laser resonator fiber (see Fig. 1, Character 12) as comprising a fiber core (said limitation only recites facts and features that are well known and expected, the same features that essentially result from the use or application of a fiber core, and therefore said limitations are said to be inherently disclosed in the teachings of Shaw) surrounded by a pump fiber comprising an inner fiber portion which in turn is surrounded by a sheath (see Fig. 1, Character 14) ; at a light entrance end of said pump fiber (see Fig. 1, Character 24), inputting pump light so that laser light arises in said fiber core and exits

from said fiber core at said laser light exit (see Fig. 1, Character S₀) and at least section of said pump fiber preceding said laser light exit, allowing substantial remaining pump light to escape from the pump fiber to reduce pump light from being emitted with the laser light at said laser light exit by removing at least a portion of the sheath at said last section (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60, Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68 and Column 7, Lines 62 – 66).

Regarding claims 30 – 31, Shaw discloses at least partially stripping said laser section of said sheath and the sheath is entirely stripped away at said last section (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60, Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68).

Regarding claim 32 – 34, Shaw discloses a during manufacture of said last section only at least a part of said sheath is provided thereon and during manufacture of said last section no sheath is provided thereon at all (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60, Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68).

Regarding claims 34, 35, and 38, Shaw discloses a providing said sheath such that a diameter thereof tapers in wedge-like fashion toward said light exit in a region of said last section and removing at least the portion of said sheath at said section by etching (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60, Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68).

Regarding claim 36, Shaw discloses a fiber laser, comprising; a pump light (see Fig. 1, Character 24); a laser fiber core (said limitation only recites facts and features that are well known and expected, the same features that essentially result from the use or application of a laser fiber core, and therefore said limitations are said to be inherently disclosed in the teachings of Shaw) as a laser resonator surrounded by a pump fiber comprising; an inner fiber portion which in turn is surrounded by an outer sheath (see Fig. 1, Character 14), said pump light being received in said pump fiber at a light entrance end thereof, and said fiber core having a laser light exit at an end thereof opposite said light entrance end of said pump fiber where a laser light arising in said fiber core exits and at a alt section of the pump fiber leading to said light exit, substantial remaining pump light escapes from the pump fiber so that pump light emitted w3ith laser light at said laser light exit is reduced, since at said lase section said sheath id at least partially removed (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60,

Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68 and Column 7, Lines 62 – 66).

Regarding claims 37 and 39, Shaw discloses a sheath at said last section is entirely removed, and last section said sheath is removed completely and an outer portion of said inner fiber portion is roughened where said sheath id completely removed leading to said laser light exit, (see Fig. 1, Abstract, Column 1, Lines 20 – 25, Column 2, Lines 3 – 21, 51 – 60, Column 3, Lines 15 – 32, Column 4, Lines 23 – 68, Column 5, Lines 1, 13 – 15, 38 – 64, Column 6, Lines 9 – 68).

Response to Arguments

Applicant's arguments filed 5/6/2004 have been fully considered but they are not persuasive.

Applicant argues the prior art lacks: In claim 29 goes no to recite that at least portion of the sheath is removed at the las section. The examiner disagree with the applicant arguments since the prior art does teach In claim 29 goes no to recite that at least a portion of the sheath is removed at the las section (column 7, lines 62 – 66) as stated in the rejection above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Delma R. Flores Ruiz whose telephone number is (571) 272-1940. The examiner can normally be reached on M - F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Min Sun Harvey can be reached on (571) -272-1835. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
